Mopar Showcases Modified Jeep® Vehicles at 2015 Frankfurt International Motor Show

- Jeep Cherokee KrawLer is bulked up for the off-road with unique suspension, tires, skid plates and more
- Mopar modifications to the Jeep Wrangler Rubicon Sunriser include a 4-inch lift kit and half doors
- Jeep Renegade Trailhawk features customizations including 17-inch rims, underbody skid plates and tow hooks

September 15, 2015, Auburn Hills, Mich. - The Mopar brand revealed today at the 2015 Frankfurt International Motor Show (IAA) a trio of Jeep® branded show vehicles modified with a selection of parts and accessories. The Jeep

Cherokee KrawLer, Jeep Wrangler Rubicon Sunriser and Jeep Renegade Trailhawk demonstrate how Mopar can help personalize the customer journey for owners around the globe.

Jeep Cherokee KrawLer
Based on the Trailhawk model, the Jeep Cherokee KrawLer was created to tackle the toughest driving conditions — as the name suggests by hinting at the vehicle's "rock crawler" capabilities for navigating harsh off-road obstacles. The capital "K" and "L" in the name refer to the KL code that identifies the Cherokee nameplate.

The ride is raised for extreme off-road use with Mopar equipment including special suspension, BFGoodrich KM2 255/80/17 off-road tires, wider fenders, skid plates and rock rails. The Cherokee KrawLer sports a special, military-inspired matte-green body color accented with quartz grey interior and exterior details. The KrawLer is powered by a 3.2 V6 Pentastar 272 horsepower engine, automatic nine-speed transmission and "Jeep Active Drive Lock" four-wheel drive with low range and rear differential lock.

Jeep Wrangler Rubicon Sunriser
The Jeep Wrangler Rubicon Sunriser features exclusive matte orange paintwork (hence the name), in addition to a host of Mopar accessories such as bumpers with a double tow hook on the front, a 4-inch suspension lift kit and half doors. The Sunriser also showcases LED lights fitted between the A-pillar and windscreen to complete the look. LED technology is also implemented for the daytime running lights and rear light clusters. The interior is wrapped in black leather customized with matte fluorescent orange trim, matching the color of the body.

The vehicle includes an engine skid plate and beadlock wheels, which fix the tire bead to the rim to prevent unintended tire removal, especially when running with very low pressure and tackling tricky obstacles such as rocks, sand or mud. The Sunriser is powered by a 2.8 CRD engine combined with a five-speed automatic transmission.

Jeep Renegade Trailhawk
Rounding out the Mopar customized line-up at Frankfurt is a special "Moparized" version of the Jeep Renegade Trailhawk. This one-of-a-kind Trailhawk is equipped with 17-inch aluminium alloy rims, underbody skid plates, two rear tow hooks and exclusive black mirror caps that nicely contrast with the Anvil-colored livery and special side stickers.

Inside, the customization includes sporty pedals and Jeep design mats. All Mopar accessories are specifically designed to enhance the adventurous spirit of this version of the Renegade, which is most suited to off-roading.

Mopar
Mopar is the global name for Stellantis genuine parts and authentic accessories.

A simple combination of the words MOtor and PARts, Mopar offers exceptional service, parts and customer-care. Born in 1937 as the name of a line of antifreeze products, Mopar has evolved over more than 85 years to represent both complete vehicle care and authentic performance for owners and enthusiasts worldwide.

Mopar made its mark in the 1960s during the muscle-car era with performance parts to enhance speed and handling for both on-road and racing use. Later, Mopar expanded to include technical service and customer support, and today integrates service, parts and customer-care operations in order to enhance customer and dealer support worldwide.
