'MotorTrend Presents Roadkill Nights Powered by Dodge' to Return in 2023, Direct Connection Grudge Race Competitors to Use New HurriCrate Series Engines

- MotorTrend Presents Roadkill Nights Powered by Dodge will return for an eighth edition in 2023
- Roadkill Nights continues to grow each year – 2022 event set a new one-day attendance record of more than 40,000 attendees
- Dodge Direct Connection Grudge Race will feature competitors using all-new Direct Connection HurriCrate Series engines in their drag car build projects
- Direct Connection HurriCrate series of engines, derived from the all-new 3.0L Hurricane Twin Turbo engine, were announced today in conjunction with the opening of the brand's display at the 2022 Specialty Equipment Market Association (SEMA) Show in Las Vegas
- 2023 Dodge Direct Connection Grudge Race will pair an experienced drag racer and online automotive builder (The Mentor) with a "rookie" online builder/racer (The Protégé)
- The Mentor will assist The Protégé in building, tuning and testing their drag car build project before The Protégé ultimately battles it out on the strip during Roadkill Nights
- Grudge Race competitors will also be connected with a Dodge Power Brokers dealer and have VIP access to the Direct Connection Tech hotline at (800) 998-1110 to assist with build projects
- For more information on Direct Connection, the Dodge brand's exclusive source of factory-backed performance parts available through Dodge Power Brokers dealers, visit [DCPerformance.com](https://dcp.com)

November 1, 2022, Auburn Hills, Mich. - Dodge and MotorTrend are announcing the 2023 return of the one-day festival of street-legal drag racing, MotorTrend Presents Roadkill Nights Powered by Dodge, along with a new format for the popular Dodge Direct Connection Grudge Race that highlights the Roadkill Nights event. Grudge Race competitors will pair up in 2023 and use all-new Dodge Direct Connection HurriCrate series of engines, derived from the all-new 3.0L Hurricane Twin Turbo engine, as the foundational building blocks of their respective drag car build projects.

The [2022 edition](#) of MotorTrend Presents Roadkill Nights Powered by Dodge, held on August 13, set a new one-day attendance record with more than 40,000 performance enthusiasts turning out in person, along with more than a million online views. The 2023 event will represent the eighth edition of Roadkill Nights, which has evolved from humble beginnings in a stadium parking lot to its current form with a massive footprint that draws tens of thousands.

"Roadkill Nights just continues to evolve and get better each year, and we knew we were going to run it back next year, so we thought, 'Why wait?' We're announcing right now that our horsepower circus will be coming to town in 2023," said Tim Kuniskis, Dodge brand chief executive officer – Stellantis. "Next year, Dodge Direct Connection Grudge Race competitors will have at the heart of their build projects new Direct Connection HurriCrate engines. Since this is new tech for our enthusiasts, we're going to give them more time to dial in their race car builds. We can't wait to see the results next summer during Roadkill Nights Powered by Dodge."

The Dodge Direct Connection Grudge Race pits online automotive builders in head-to-head drag-racing competition. The 2023 Grudge Race will feature pairs of competitors working together to create a Dodge or Plymouth drag

machine using a new Direct Connection HurriCrate Series engine. The HurriCrate series of engines from Direct Connection was announced today in conjunction with the opening of the Dodge brand's exhibit at the 2022 Specialty Equipment Market Association (SEMA) show in Las Vegas, Nov. 1-4.

The 2023 Dodge Direct Connection Grudge Race will feature an experienced drag racer and online automotive builder (The Mentor) working together with a "rookie" online builder/racer lacking previous drag-racing experience (The Protégé). The Mentor will "school" The Protégé on building, tuning and testing their build project before The Protégé ultimately battles it out on the drag strip for the Direct Connection Grudge Race crown during the Roadkill Nights Powered by Dodge event. All competitors will be linked with a Dodge Power Brokers dealer and have VIP access to the Direct Connection Tech hotline at (800) 998-1110 to assist with their build projects.

"We are proud to partner with Dodge and bring back fans to Roadkill Nights in 2023," said Eric Schwab, MotorTrend Group's group SVP. "Roadkill Nights truly brings the thrill of fingers-clenching, top-speed drag racing to life. There's something for everyone — drag racers, families, foodies and anyone who is looking to have a great day filled with unparalleled fun."

Additional details on the 2023 MotorTrend Presents Roadkill Nights Powered by Dodge event, including dates, location and information on the Dodge Direct Connection Grudge Race and event competitors, will be shared later in 2023.

Dodge//SRT

For more than 100 years, the Dodge brand has carried on the spirit of brothers John and Horace Dodge. Their influence continues today as Dodge shifts into high gear with a lineup that delivers unrivaled performance in each of the segments in which the brand competes while moving forward to a future that includes electrified muscle in the form of the next-generation, all-new Dodge Charger.

The next-generation Dodge Charger electrifies a legend, with the Charger retaining its title as the world's quickest and most powerful muscle car led by the all-new, all-electric 2024 Dodge Charger Daytona Scat Pack. The all-new Dodge Charger will also offer performance choices via multi-energy powertrain options including the 550-horsepower

Dodge Charger SIXPACK H.O., powered by the 3.0L Twin Turbo Hurricane High Output engine.

Dodge also keeps its foot on the gas as a pure performance brand with the 710-horsepower Dodge Durango SRT Hellcat, the most powerful SUV ever, and best-in-class standard performance in the compact utility vehicle segment with the Dodge Hornet.

Dodge is part of the portfolio of brands offered by leading global automaker and mobility provider Stellantis. For more information regarding Stellantis (NYSE: STLA), please visit www.stellantis.com.
