Stellantis, Archer Move Partnership From Concept Phase to Execution Phase

- Construction is well underway on the world's first high-volume eVTOL aircraft manufacturing facility in Covington, Georgia
- Experienced Stellantis personnel are providing expertise alongside Archer teams to prepare efficient, innovative manufacturing operations
- Stellantis recently increased its strategic shareholding in Archer through a series of purchases of Archer stock in the open market
- Archer's Midnight aircraft currently featured at the Paris Air Show

June 19, 2023, Le Bourget, France - [Archer Aviation Inc.](#) (NYSE: ACHR) and [Stellantis N.V.](#) today announced progress in their strategic manufacturing partnership at the 2023 Paris Air Show. With construction now well underway on the world's first high-volume eVTOL aircraft manufacturing facility located on an approximately 100-acre campus in Covington, Georgia, Stellantis recently increased its strategic shareholding through a series of purchases of Archer stock in the open market.

"The Stellantis and Archer teams are moving full speed ahead in execution mode to ensure we meet our goal of bringing scalable manufacturing of Archer's aircraft online in mid-2024," said Stellantis CEO Carlos Tavares. "We believe this unique partnership is setting the standard for cross-industry collaboration and continues to be a key pillar of our strategy to ensure Stellantis leads the way the world moves, providing freedom of mobility in all ways. With our trusted teams onsite working shoulder to shoulder with Archer, I have no doubt that we are on the right path."

"At Archer, our goal is not just to get to commercialization, but to achieve it at scale. High-volume manufacturing is critical to ensuring we can meet this goal, and joining forces with one of the leading mobility companies in the world is helping us realize the once-in-a-generation opportunity we have to redefine urban transportation," said Archer's Founder and CEO Adam Goldstein. "I couldn't be prouder of what we've already accomplished with this partnership as we continue to lead the industry in building out manufacturing capabilities."

During the manufacturing ramp-up phase, the goal is to leverage each company's respective strengths to enable the rapid scaling of aircraft production to meet Archer's commercialization plans. As the two companies rapidly progress toward bringing this facility online in mid-2024, there are now experienced Stellantis personnel working full-time alongside the Archer team, supporting operational readiness with the current focus on manufacturing automation and component sourcing. Stellantis personnel are now embedded across almost all areas of Archer's operations, including manufacturing, engineering, supply chain, quality, facilities and human resources.

Initial manufacturing operations will be capable of producing up to 650 aircraft per year with room for expansion to support production of up to 2,300 aircraft per year. Manufacturing aircraft at these volumes would make this site the world's leading aircraft manufacturing facility by volume.

Archer

Archer is designing and developing electric vertical takeoff and landing aircraft for use in urban air mobility networks. Archer's mission is to unlock the skies, freeing everyone to reimagine how they move and spend time. Archer's team

is based in Santa Clara, California. To learn more, visit www.archer.com.

Stellantis

Stellantis N.V. (NYSE: STLA / Euronext Milan: STLAM / Euronext Paris: STLAP) is one of the world's leading automakers and a mobility provider. ARCHER FORWARD-LOOKING STATEMENTS

This press release contains forward looking statements regarding Archer's future business plans, including statements regarding the timing of Archer's development, commercialization, and certification of its eVTOL aircraft. These forward looking statements are only predictions and may differ materially from actual results due to a variety of factors. The risks and uncertainties that could cause actual results to differ from the results predicted are more fully detailed in Archer's filings with the Securities and Exchange Commission, including its most recent Annual Report on Form 10-K, available at www.sec.gov. In addition, please note that any forward looking statements contained herein are based on assumptions that Archer believes to be reasonable as of the date of this press release. Archer undertakes no obligation to update these statements as a result of new information or future events.

STELLANTIS FORWARD-LOOKING STATEMENTS

This communication contains forward-looking statements. In particular, statements regarding future events and anticipated results of operations, business strategies, the anticipated benefits of the proposed transaction, future financial and operating results, the anticipated closing date for the proposed transaction and other anticipated aspects of our operations or operating results are forward-looking statements. These statements may include terms such as "may", "will", "expect", "could", "should", "intend", "estimate", "anticipate", "believe", "remain", "on track", "design", "target", "objective", "goal", "forecast", "projection", "outlook", "prospects", "plan", or similar terms. Forward-looking statements are not guarantees of future performance. Rather, they are based on Stellantis' current state of knowledge, future expectations and projections about future events and are by their nature, subject to inherent risks and uncertainties. They relate to events and depend on circumstances that may or may not occur or exist in the future and, as such, undue reliance should not be placed on them.

Actual results may differ materially from those expressed in forward-looking statements as a result of a variety of factors, including: the impact of the COVID-19 pandemic, the ability of Stellantis to launch new products successfully and to maintain vehicle shipment volumes; changes in the global financial markets, general economic environment and changes in demand for automotive products, which is subject to cyclicalities; changes in local economic and political conditions, changes in trade policy and the imposition of global and regional tariffs or tariffs targeted to the automotive industry, the enactment of tax reforms or other changes in tax laws and regulations; Stellantis' ability to expand certain of their brands globally; its ability to offer innovative, attractive products; its ability to develop, manufacture and sell vehicles with advanced features including enhanced electrification, connectivity and autonomous-driving characteristics; various types of claims, lawsuits, governmental investigations and other contingencies, including product liability and warranty claims and environmental claims, investigations and lawsuits; material operating expenditures in relation to compliance with environmental, health and safety regulations; the intense level of competition in the automotive industry, which may increase due to consolidation; exposure to shortfalls in the funding of Stellantis' defined benefit pension plans; the ability to provide or arrange for access to adequate financing for dealers and retail customers and associated risks related to the establishment and operations of financial services companies; the ability to access funding to execute Stellantis' business plans and improve its businesses, financial condition and results of operations; a significant malfunction, disruption or security breach compromising information technology systems or the electronic control systems contained in Stellantis' vehicles; Stellantis' ability to realize anticipated benefits from joint venture arrangements; disruptions arising from political, social and economic instability; risks associated with our relationships with employees, dealers and suppliers; increases in costs, disruptions of supply or shortages of raw materials, parts, components and systems used in Stellantis' vehicles; developments in labor and industrial relations and developments in applicable labor laws; exchange rate fluctuations, interest rate changes, credit risk and other market risks; political and civil unrest; earthquakes or other disasters; risks and other items described in the Company's Annual Report on Form 20-F for

the year ended December 31, 2022 and Current Reports on Form 6-K and amendments thereto filed with the SEC; and other risks and uncertainties.

Any forward-looking statements contained in this communication speak only as of the date of this document and Stellantis disclaims any obligation to update or revise publicly forward-looking statements. Further information concerning Stellantis and its businesses, including factors that could materially affect Stellantis' financial results, is included in Stellantis' reports and filings with the U.S. Securities and Exchange Commission and AFM.
