Chrysler Group today announced U.S. pricing for its all-new 2005 Dodge Magnum. Dodge Magnum offers flexibility and versatility with proportions unlike any other vehicle in the market place.

With a base MSRP of \$22,495 including destination, Dodge Magnum will begin arriving in dealerships in the spring. The Manufacturer's Suggested Retail Price (MSRP) for the 5.7-liter HEMI® powered Dodge Magnum RT is \$29,995, which includes destination.

"Armed with HEMI and rear-wheel drive, Dodge Magnum offers unmatched performance, packaging and price," said Darryl Jackson, Vice President, Dodge Marketing, Chrysler Group.

Dodge Magnum SE

At just \$22,495 including destination, the all-new 2005 Dodge Magnum SE provides a uniquely styled, versatile vehicle. Dodge Magnum SE features the fuel efficient 190 horsepower 2.7-liter V-6 engine with a four-speed automatic transmission. All Dodge Magnum SE models include a 60/40 split rear folding seat, remote keyless entry, outside temperature display, AM/FM CD radio, manual tilt/telescoping steering column, super access lift gate, reversible cargo load floor, and body color door handles and moldings. Also available are an eight-way power driver's seat, adjustable pedals, rear cargo management system, four-wheel disc antilock brakes, all speed traction control, electronic stability control, and emergency brake assist.

Dodge Magnum SXT

Dodge Magnum SXT is the second model in the lineup adding functional content to its unmistakable, bold styling. This package includes the high output 250 horsepower 3.5-liter V-6 engine, four-wheel disc antilock brakes, all speed traction control, electronic stability control, emergency brake assist, eight-way power driver's seat, 17-inch aluminum wheels and sunscreen glass for \$25,995 including destination. Also available is the Protection Group (including self sealing tires, front and rear side curtain airbags and an air filtration system), Boston Acoustic Premium Sound System, UConnect hands free communication system, sunroof, and heated leather seats.

Dodge Magnum RT

Dodge Magnum RT provides unmatched performance with the 340 horsepower, 390 foot-pound HEMI V-8 engine mated to an electronically controlled five-speed automatic transmission with AutoStick®. All Dodge Magnum RT models feature 18-inch polished aluminum wheels, dual exhaust, large performance disc brakes, fog lamps, exterior chrome accents, leather seats, and Boston Acoustic Premium Sound System with six-speaker 288-watt digital amplifier. This vehicle also features 3,800 pound towing capability when properly equipped.

The 2005 Dodge Magnum RT will feature cylinder deactivation when it goes on sale in the spring of 2004. The Chrysler Group Multi Displacement System (MDS) seamlessly turns off the fuel consumption in four cylinders of the 5.7-liter HEMI engine when V-8 power is not needed. This provides a world class combination of performance and fuel economy.

All Dodge Magnum vehicles feature a short-long arm (SLA) front suspension system combined with a five-link independent rear suspension to provide excellent handling and a comfortable ride.

Dodge Magnum is built at the Company's Brampton, Ont. (Canada) manufacturing plant along with the all-new Chrysler 300 Series.

	MSRP	Destination
Dodge Magnum SE	\$21,870	\$625
Dodge Magnum SXT	\$25,370	\$625

Dodge Magnum RT

\$29,370

\$625
