RCH RACING QUOTE

"The podium is reachable now that I've seen (Jake) Weimer do it. We've been clunking feet all year. He got a good start, rode really well and got a third in the second Moto at Unadilla. That showed me that I'm able to do it too. I'm looking forward to getting in some good practice starts this week. We'll do the best we can to get the most power out of the bike. The team is on top of that because we raced Supercross there this year and know where we need to be and what we need to do to make it better.

"My goal is to try to get in the top-five in both Motos. I know I can do that. I've had the speed the last three weekends to do it and just need a little better start or just be a little more aggressive on the first two laps. I know what I need to do. It's in my hands and nobody else can do it but me."

QUOTE OF THE WEEK

"It's always cool to have a new race. Since I've been pro, there's only been a couple new tracks added to the schedule. I believe this facility is like a road-race course which is obviously a lot different than racing dirt bikes, so we'll see how they do everything. I'm sure the facility is really nice.

"It's supposed to be hot this weekend and I'm looking forward to that. We really haven't had a hot one yet and that seems to be when I normally do better than the guys I'm racing against."
