John and Horace Dodge developed America's first mass-produced all-steel-bodied cars in 1914 and set a new record for the most first-model-year automobiles ever produced (45,033 cars). A hundred years later, the Dodge Brother's legacy is thriving as Dodge has become America's youngest and fastest-growing brand – powered by the performance of the legendary Charger and Challenger; the new Durango, the ultimate "no compromise SUV"; the world-class new Dart; the ever-versatile Grand Caravan, America's best-selling minivan; the innovation, ingenuity and efficiency of Journey; and the ultimate performance halo car – the Dodge Viper.

100th Anniversary Dodge Charger and Challenger

The Dodge brand is also offering special editions of two of its most iconic vehicles. New 2014 Dodge Charger and Challenger 100th Anniversary Editions with world-class power and performance, innovative technology features and bold muscle-car styling with commemorative design details inspired by the brand's heritage, are in dealerships now.

The new 2014 Charger and Challenger 100th Anniversary Editions are loaded with unique style, technology and commemorative features. They deliver up to 31 miles per gallon (mpg) with the standard Pentastar V-6 engine and sprint to 60 miles per hour in under 6 seconds, thanks to the available legendary 5.7-liter HEMI® V-8 engine that produces 375 horsepower and 395 lb.-ft. of torque. They also feature world-renowned innovations like Uconnect and the segment-exclusive ZF eight-speed automatic transmission.

Both of these limited production vehicles will share several unique visual elements, both outside and in, including exclusive availability of a new “High Octane” red pearl coat paint, all-new 20-inch aluminum wheels with granite crystal pockets, commemorative fender and seat badging, new Molten Red or Foundry Black Nappa leather seating with cloud overprint and brass accent stitching, and a special limited-edition owner’s kit and a commemorative book that celebrates 100 years of Dodge heritage.
