2017 Fiat 500e Fact Sheet

New for 2017

- 2017 Fiat 500e offers iconic style, engaging dynamics and an environmentally responsible zero-emissions design
- Fiat 500e delivers 108 MPGe highway rating and 87 miles of combined city/highway driving range, with city driving range typically greater than 100 miles
- Unsurpassed frugality with EPA-estimated annual fuel-equivalent cost of \$500
- Fiat 500e is designed to keep electric vehicle (EV) ownership simple with its familiar no-nonsense design, convenience features, unique “blended braking” and intelligently integrated approach to battery-electric technology
- World-class handling and braking for an EV that adds to the FIAT brand's lineup of vehicles with highly engaging driving dynamics
- 2017 Fiat 500e is available in eight exterior colors and features Uconnect 5.0 touchscreen with
- 5-inch touchscreen radio, Bluetooth connectivity and integrated voice command

August 31, 2016, Auburn Hills, Mich. - With its iconic style, world-class dynamics and environmentally responsible zero-emissions design, the Fiat 500e builds on the Cinquecento legacy, while offering customers a no-compromise electric vehicle that embodies the FIAT brand's simple, purposeful and fun-to-drive values. The Fiat 500e electrifies the Cinquecento lineup with even more innovation and style, an EPA-tested 87 miles of driving range and 108 miles per gallon equivalent (MPGe) highway rating of pure battery-electric power.

Highlights

- Designed to be a Fiat 500 first and foremost, this no-compromise electric vehicle (EV) builds on the Cinquecento's successful small-car formula, while adding a liquid heated/cooled battery-electric powertrain that produces 111 horsepower (83 kW)
- 2017 Fiat 500e recharges in less than 4 hours with its 6.6 kW on-board charging module (OBCM) connected to a Level 2 energy source (220 volts)
- When put through its paces, the aerodynamically styled Fiat 500e was rated with 108 highway MPGe and 87 miles of combined city and highway driving range by the Environmental Protection Agency (EPA). And with the Cinquecento's regenerative braking system, drivers will typically exceed 100 miles of driving range in the city – all without any tailpipe emissions
- Unlike other EVs in the market that have an aggressive and unwanted “drag” feeling when lifting off the accelerator pedal, the 2017 Fiat 500e is designed to feel like a regular gasoline-powered Cinquecento, while still immediately regenerating. In most cases, the Fiat 500e uses 100 percent of its regenerative braking capability all the way down to 8 mph to maximize the vehicle's efficiency, while enabling longer life of the brakes
- 2017 Fiat 500e pushes its iconic Italian design forward with its wind-tunnel-sculpted shape and retro-futuristic dot-matrix styled cues for a cutting-edge look. Inside, Fiat 500e fuses retro-futuristic design with unique EV technology elements for an environment that combines simplicity with innovation:
- Seven-inch thin-film transistor (TFT) instrument cluster displays full-color picture graphics to illustrate vehicle functions, charge levels and trip summary
- Uconnect 5.0 system with a 5-inch touchscreen enables handsfree calling via Bluetooth-equipped

phones, as well as voice-command control of AM/FM, and optional SiriusXM Radio and navigation system

- Uniquely designed electronic shifter with easy-to-use push-button transmission mode selection

Model Lineup

For 2017, the Fiat 500e lineup consists of two models:

- 500e
- 500e E-Sport

Exterior Colors

- Billet Argento (Billet Silver) Metallic Clear Coat
- Grigio Cenre (Light Gray) Clear Coat
- Celeste Blue (Light Blue) Clear Coat
- Granito Lucente (Granite Crystal) Metallic Clear Coat
- Rhino (Dark Gray) Clear Coat
- Nero Puro (Black Gloss) Clear Coat
- Bianco Perla (Pearl White) Tri-coat
- Arancio Electrico Perla (Electric Orange) Tri-coat Pearl

Interior Colors

- Steam/Arancio Electrico
- Nero/Arancio Electrico
