FCA Canada: 2020 Ram 2500 & 3500 Heavy Duty Fact Sheet

August 31, 2019, Windsor, Ontario - The Ram Heavy Duty is the most powerful, most capable pickup in the segment with a towing capacity of 15,921 kilograms (35,100 pounds) and a payload capacity of 3,484 kilograms kg (7,680 lb.). Driving it all, a never-before-seen torque rating of 1,000 lb.-ft. from the Cummins I-6 Turbo Diesel engine. The new Ram Heavy Duty also sets benchmarks in comfort, luxury materials, innovation and technology extending well past any competitive offerings. Class-leading ride and handling is accomplished via a class-exclusive link-coil rear (2500) suspension system with optional rear air suspension (2500 and 3500). Giving maximum effort all day, every day with confidence, the Ram Heavy Duty line of pickups steps forward with the full force of modern capability.

New for 2020

- Ram Heavy Duty Night Edition (Big Horn and Laramie) includes monochromatic design enhanced by black 20-inch wheels, black badging and black interior. Available in a variety of body colours
- Lane Keep Assist and Adaptive Steering now available on all trim levels
- Blind-spot Monitoring, including easy-to-use trailer coverage
- Trailer tire pressure monitoring
- Auxiliary camera system supporting up to two different cameras
- 187-litre (50-gallon) fuel tank standard on Crew Cab with 8-foot bed
- Olive Green and Hydro Blue exterior colours
- Power Wagon black wheels

Highlights

- Ram delivers on customers' top "why buys"
 - Towing – Up to 15,921 kg (35,100 lb.) with Ram 3500
 - Towing – Up to 8,972 kg (19,780 lb.) with Ram 2500
 - Payload – Up to 3,484 kg (7,680 lb.) with Ram 3500
 - Power – 1000 lb.-ft. of torque with 6.7-litre Cummins engine
 - Power – 410 horsepower and 429 lb.-ft. of torque with 6.4-litre HEMI® V-8 engine
- The Ram 2500 offers two segment-exclusive rear suspensions: a five-link coil system and an air suspension system. The Ram 3500 continues to utilize the rear Hotchkiss leaf spring system and offers an exclusive supplemental air suspension system
- Industry's leading infotainment system — Uconnect 4C with exclusive 12-inch touchscreen
- The Ram Power Wagon is driven by the 6.4-litre HEMI V-8 engine and unique suspension system, both contributing to its title: the most capable production off-road pickup
- Engine options include:
 - 6.4-litre HEMI V-8 delivers best-in-class gas engine power – 410 horsepower at 5,600 rpm and 429 lb.-ft. of torque at 4,000 rpm – and features VVT with Fuel Saver Technology cylinder deactivation
 - 6.7-litre Cummins Standard-Output Turbo Diesel produces 370 horsepower and 850 lb.-ft. of torque (Ram 2500)
 - 6.7-litre Cummins High-Output Turbo Diesel produces 400 horsepower and 1,000 lb.-ft. of torque (Ram 3500)
