November 19, 2019, Auburn Hills, Mich. - The answer to the second “Dodge Horsepower Challenge,” in addition to the release of the third weekly challenge question, is now available online at Dodge.com. Dodge recently announced that it will welcome five new owners into the Brotherhood of Muscle with the “[Dodge Horsepower Challenge: 5 Weeks. 5 Questions. 5 Challengers](#),” which gives five consumers the chance to win one of five special-edition TorRed Dodge Challenger SRT Hellcat Redeye models. The key to being eligible to win a Challenger lies in answering at least one of the weekly multiple choice challenge questions correctly.

“Our Dodge fans have proven that not only do they know their Muscle Cars, they’re also really good with a calculator,” said Tim Kuniskis, Global Head of Alfa Romeo and Head of Passenger Cars – Dodge, SRT, Chrysler and FIAT, FCA – North America. “Only 2 of the 5 challenges have been released, and we’ve had over 4,000 fans that came up with the correct answers. Each one now has a shot at taking home a Dodge Challenger SRT Hellcat Redeye, and with three Challenges remaining, so do you.”

Dodge is known for appearing in some pretty amazing action movie stunts. Well, now we’re challenging you to think about what it takes to pull it off...

Q. If we recreated the scene from “Fast & Furious 7” and dropped a Challenger SRT® Hellcat Redeye Widebody from a C-130 aircraft at 5,280 ft, how much horsepower would it take to drive past it before it hits the ground if you’re 1 mile away?

The answer to the second challenge question below, posed on November 12, is available now online at www.Dodge.com.

Q. If we wanted our cars to be quieter, we’d just have to make ‘em go faster. How much horsepower would the 2019 Dodge Challenger SRT Hellcat Redeye need to get somewhere before the sound of its engine does?

For more than 100 years, the Dodge brand has carried on the spirit of brothers John and Horace Dodge. Their influence continues today as Dodge shifts into high gear with a lineup that delivers unrivaled performance in each of the segments where they compete.

Dodge drives forward as a pure performance brand, offering SRT Hellcat versions of the Dodge Challenger, Dodge Charger and Dodge Durango, as well as an R/T plug-in hybrid electric vehicle (PHEV) version of the all-new 2023 Dodge Hornet, representing the brand's first-ever electrified performance vehicle. Dodge delivers the drag-strip dominating 807-horsepower Dodge Challenger SRT Super Stock; the 797-horsepower Dodge Charger SRT Redeye, the most powerful and fastest mass-produced sedan in the world; and the 710-horsepower Dodge Durango SRT Hellcat, the most powerful SUV ever; and best-in-class standard performance in the compact utility vehicle segment with the Dodge Hornet. Combined, these four muscle vehicles make Dodge the industry's most powerful brand, offering more horsepower than any other American brand across its entire lineup.

In 2022, the Dodge brand ranked No. 1 in the [J.D. Power APEAL Study](#) (mass market), making it the only domestic brand ever to do so three years in a row. In 2020, Dodge was named the "#1 Brand in Initial Quality," making it the first domestic brand ever to rank No. 1 in the [J.D. Power Initial Quality Study](#) (IQS).
