for 2021 with new aggressive exterior styling, a new interior with a Challenger-inspired driver-centric cockpit, five-times-faster Uconnect 5 on the largest-in-class available 10.1-inch touchscreen.

The Challenger and Charger muscle car exteriors are reflected in the Durango's new, aggressive exterior, which features a new front fascia, LED low/high projector headlamps, LED daytime running lamp (DRL) signatures, grille, rear spoiler and wheels.

The Durango interior is significantly upgraded for the 2021 model year with a new performance-inspired cockpit, including a redesigned instrument panel, center console and front doors, and five-times-faster Uconnect 5 with the largest-in-class available 10.1-inch touchscreen. With all of the updates, the interior feels more driver-oriented, modern and refined than the outgoing model.

The new Tow N Go Package on the 2021 Durango R/T AWD leverages its 5.7-liter HEMI® V-8 engine performance, SRT's menacing looks, unmatched best-in-class towing of 8,700 pounds, an improved top speed of 145 mph, Track, Sport, Snow and Tow drive modes and SRT-tuned performance exhaust with an iconic Dodge exhaust rumble.

The 2021 Durango Citadel is the all-in luxury trim of the Durango lineup, delivering many premium features as standard equipment, including heated and ventilated Nappa leather driver and passenger seats, the full suite of safety features and more. The Citadel offers two powertrain options, both of which include class IV towing with integrated trailer brake as standard equipment:

Dodge//SRT

For more than 100 years, the Dodge brand has carried on the spirit of brothers John and Horace Dodge. Their influence continues today as Dodge shifts into high gear with muscle cars and SUVs that deliver unrivaled performance in each of the segments where they compete.

2021 marks the year that Dodge is distilled into a pure performance brand, offering Hellcat-powered, 700-plus-horsepower SRT versions of every model across the lineup. For the 2021 model year, Dodge delivers the drag-strip dominating 807-horsepower Dodge Challenger SRT Super Stock, the new 797-horsepower Dodge Charger SRT Redeye, the most powerful and fastest mass-produced sedan in the world, and the new 710-horsepower Dodge Durango SRT Hellcat, the most powerful SUV ever. Combined, these three muscle cars make Dodge the industry's most powerful brand, offering more horsepower than any other American brand across its entire lineup.

In 2020, Dodge was named the "#1 Brand in Initial Quality," making it the first domestic brand ever to rank No. 1 in the J.D. Power [Initial Quality Study](#) (IQS). The Dodge brand also ranked No. 1 in the J.D. Power [APEAL Study](#) (mass market). These results are historic because it marks the first time a domestic brand has earned top spots in both J.D. Power studies in the same year.
