Jeep® Performance Parts Introduces Industry-first 2-inch Lift Kit for a Plug-in Hybrid Electric Vehicle

- Wide portfolio of factory-backed, quality-tested parts and accessories available for the new 2021 Jeep® Wrangler 4xe
- Industry-first Jeep Performance Parts 2-inch lift kit is specifically engineered and tuned for the new Wrangler 4xe plug-in hybrid electric vehicle application
- New Jeep and Mopar branded 240-volt at-home electric-vehicle wall chargers are available now at Mopar dealers; charges more than five times faster than standard cordset cable

April 29, 2021, Windsor, Ontario - With a comprehensive portfolio of Jeep® Performance Parts (JPP) and accessories, Mopar will help power the introduction of the new 2021 Jeep Wrangler 4xe plug-in hybrid electric vehicle.

“With an industry-first lift kit for a plug-in hybrid electric vehicle, Jeep Performance Parts from Mopar will give owners of the new 2021 Jeep Wrangler 4xe the opportunity to amplify the 4x4 capability and the fun-to-drive, open-air experience of the most capable, technically advanced, eco-friendly SUV,” said Jim Morrison, Vice President, Jeep Brand North America. “The new 2021 Wrangler 4xe is Trail Rated with solid front and rear axles, a full-time 4x4 two-speed transfer case, a fully articulating suspension, and 30 inches of water fording capability.”

The new Jeep Wrangler 4xe delivers up to 35 kilometres (21 miles) of nearly silent, zero-emission, electric-only propulsion, making it commuter friendly as an all-electric daily driver without range anxiety. The hybrid powertrain combines a high-tech 2.0-litre four-cylinder turbocharged engine with two electric motors, a high-voltage battery pack, and the TorqueFlite eight-speed automatic transmission. Benchmark 470 lb.-ft. of torque in the Wrangler 4xe arrives instantly on demand from the driver. The powertrain also delivers fuel-saving, seamless, start-stop operation of the engine.

“We continue to expand our off-road Jeep portfolio with more innovative new features including convenient at-home electric-vehicle chargers for vehicles like the new Jeep Wrangler 4xe,” said Mark Bosanac, North America Vice President, Mopar Service, Parts & Customer Care. “Across the entire Jeep lineup, Mopar offers more than 500 quality-tested, factory-backed parts and accessories.”

Below are select JPP and Mopar offerings available for the new 2021 Jeep Wrangler 4xe (with Mopar part number and Canadian MSRP). For more information, see Mopar Parts and Accessories at mopar.ca

JPP 2-inch lift kit (77072522 | \$2,310): The industry-first lift kit for a plug-in hybrid vehicle is tuned specifically for the Jeep Wrangler 4xe plug-in hybrid vehicle application. The kit includes four springs, four FOX shocks, front lower control arms, front and rear stabilizer links, front and rear bump stops, various fasteners, and the JPP badge all packaged in a custom, reusable wooden crate complete with the JPP logo.

240-volt at-home electric vehicle wall chargers: The 240-volt Level 2 wall chargers are available with branding from Mopar or Jeep in hard-wired (**HCS40 | \$844**) or plug-in (**HCS40P | \$844**) versions for at-home use. Customers can enjoy a more-than-five-times faster charging time for their iconic off-roader versus the standard cordset cable.

JPP rock rails (82215165AB | \$1,340): For the serious off-roader, JPP rock rails provide added lower-body protection to the vehicle. Rails are roll-formed and constructed from zinc-coated steel for superior corrosion resistance. The outer surface is e-coated and then DuraBull®-coated (truck bedliner coating) to provide superior

protection.

JPP tube doors (77072498AC | \$1,845): Constructed of 2-inch round, heavy-gauge steel tubes, JPP tube doors create more open-air freedom. Production hinges and rubber bump stops are used for added strength and factory fit and finish, while preventing shakes and rattles.

JPP mirror kit for tube doors (77072562AA | \$311): For added functionality of the JPP tube doors, the mirror kit includes two side mirrors that provide an improved range of vision during open-air adventures. Available beginning in early May.

JPP half doors (part of Dual-Door Group – sales code AJB for four-door | \$5,395; AJS for four door | \$5,935): Ordered as an option during a new-vehicle purchase, the Mopar Factory Upfit offers the Dual-Door Group that includes both full and half doors. New half-door option enhances the Jeep Wrangler driving experience with production styling, security and occupant protection. With lower window ledges, visibility is improved while maneuvering on and off road. New upper-window assemblies – available in base vinyl (AJB) or premium acrylic (AJS) – create a weather-tight seal and feature zippered plastic windows for quick, easy removal. Available in late summer.

JPP front bumper (82215691AD | \$1,845): Rigorously tested for performance, durability and corrosion, this heavy-duty front bumper is steel e-coated and black-powder coated. D-rings are included for extra towing capability. The bumper is fully compatible with the Jeep Performance Parts Rubicon Warn winch.

JPP Rubicon Warn winch (P5160095AC | \$ 2,470): Completely waterproof and submersible to ensure reliable operation during water fording and other adverse conditions, the Rubicon Warn winch includes 100 feet of Warn Spydura™ Synthetic Rope and is finished in three-stage zinc phosphate, e-coat and powder coating.

JPP winch mounting kit (82215182AC | \$695): Designed to fit on the Rubicon steel front bumper and the JPP front-bumper assembly. The mounting kit ensures proper alignment with the vehicle's airbag deployment strategy.

JPP grille and winch guard hoop (82215351 | \$361): The grille and winch guard hoop is constructed from 2-inch black powder-coated steel and bolts to the Rubicon steel front bumper or JPP steel front bumper.

JPP 7-inch off-road LED light kit (82215386AB | \$1,050): Emitting 8,000 lumens each, a pair of 7-inch off-road LED lights provide superior performance without shadows and give increased visibility for a more illuminating off-road driving experience.

JPP swing gate hinge reinforcement (82215356AB | \$782): On the rear of the vehicle, the JPP swing gate hinge reinforcement allows for a larger spare tire to be mounted on the swing gate. The reinforcement is powder-coated black and works with the production hinge for easy installation.

JPP oversized spare-tire carrier modification kit (82215355 | \$344): On the rear of the vehicle, the kit provides various spacers to adjust the production spare-tire carrier in order to accommodate the larger wheel/tire assembly. The carrier is painted with a corrosion-resistant black finish.

JPP Center High-Mount Stop Light (CHMSL) relocation kit (82215349AB | \$101): The CHMSL relocation kit allows customers to add larger tires on the spare-tire mount on the rear of the vehicle and move the CHMSL to the center of the spare tire.

All-weather floor mats (82215986 | \$222): All-weather floor mats feature high-wall, bucket-style construction in order to provide maximum coverage and protect floor areas from wetness, snow, mud, dirt and grime. The black, four-mat set includes a terrain-style surface design and red Jeep logo on the front mats.

Molded cargo tray kit (82215988 | \$174): The molded cargo tray kit provides full coverage of cargo area and seat backs. The kit includes a cargo tray for the floor and two seat-back cover pieces (60/40 seat style). The cargo tray is black and features a red Jeep logo.

Jeep Performance Parts

Created in 2012 and offered by Mopar for the Jeep brand, Jeep Performance Parts (JPP) provide off-road enthusiasts with high-end, hard-core quality aftermarket accessories and performance parts. The portfolio of factory-backed, quality-tested parts includes axles, lift kits, bumpers, winches, skid plates, suspension components, and more. The products are created in close conjunction with the Jeep brand, engineering and product design-office teams for development, testing and validation. Strict standards and factory-exclusive data — information not available to the aftermarket — are used to seamlessly integrate performance parts and accessories in order to deliver proper fit, finish and quality right down to the color, grain, and appearance of each product. Jeep Brand

Built on 80 years of legendary heritage, Jeep is the authentic SUV with capability, craftsmanship and versatility for people who seek extraordinary journeys. The Jeep brand delivers an open invitation to live life to the fullest by offering a full line of vehicles that continue to provide owners with a sense of security to handle any journey with confidence.

The Jeep vehicle lineup consists of the Cherokee, Compass, Gladiator, Grand Cherokee, Renegade and Wrangler. To meet consumer demand around the world, all Jeep models sold outside North America are available in both left- and right-hand drive configurations and with gasoline and diesel powertrain options. Jeep is part of the portfolio of brands offered by leading global automaker and mobility provider Stellantis. For more information regarding Stellantis (NYSE: STLA), please visit www.stellantis.com.

Mopar

Mopar (a simple contraction of the words MOfor and PARts) offers exceptional service, parts and customer-care. Born in 1937 as the name of a line of antifreeze products, the Mopar brand has evolved over more than 80 years to represent both complete vehicle care and authentic performance for owners and enthusiasts worldwide.

Mopar made its mark in the 1960s during the muscle-car era with performance parts to enhance speed and handling for both on-road and racing use. Later, the brand expanded to include technical service and customer support. Today, Mopar integrates service, parts and customer-care operations in order to enhance customer and dealer support worldwide.

Complete information on the Mopar brand is available at www.mopar.ca. Mopar is part of the portfolio of brands offered by leading global automaker and mobility provider Stellantis. For more information regarding Stellantis (NYSE: STLA), please visit www.stellantis.com.

Stellantis North America

Stellantis (NYSE: STLA) is one of the world's leading automakers, aiming to provide clean, safe and affordable freedom of mobility for all. In North America, it's best known for producing and selling vehicles in a portfolio of iconic, innovative and award-winning brands, including Jeep®, Chrysler, Dodge//SRT, Ram, Alfa Romeo and Fiat. Stellantis is executing its [Dare Forward 2030](#), a bold strategic plan that paves the way to achieve the ambitious target of becoming a carbon net zero mobility tech company by 2038, while creating added value for all stakeholders.
