- Registration for the event and drag racing applications is [now open](#)
- Dodge and MotorTrend announced today the all-star lineup of online automotive personalities who will be competing against Eric Malone in the Hellcat Grudge Race: Alex Taylor, Tavarish, Westen Champlin and Throtl will be racing to the finish
- Enthusiasts will be able to follow the progress of the Hellcat Grudge Race builds by viewing videos and pictures from Malone and the online automotive builders throughout their process, including behind-the-scenes content and commentary, at dodgegarage.com/roadkill-nights
- Roadkill Nights Powered by Dodge will be held for the sixth year in Pontiac, Michigan, kicking off metro Detroit's weeklong celebration of the American car culture with high-octane excitement and a full day of sanctioned legal street racing on historic Woodward Avenue, August 14, 2021
- A series of exhilarating interactive experiences, including thrill and drift rides in Dodge Challenger and Charger SRT Hellcats in two locations, immersive activations and exclusive insider access, celebrate the return of legal street racing

July 7, 2021, Auburn Hills, Mich. - Today, public [registration opens](#) for this year's MotorTrend Presents Roadkill Nights Powered by Dodge. The annual event is back for 2021 and gearing up to be better than ever with a TV-versus-online build-and-race challenge, known as the Hellcat Grudge Race.

Eric Malone, star of MotorTrend's series "Fastest Cars in the Dirty South," and four of the most prominent stars in the automotive online space will go head-to-head on Woodward Ave. The all-star lineup includes [Alex Taylor](#), [Tavarish](#), [Westen Champlin](#) and [Throtl](#). Malone and each of the online builders will receive a Challenger or Charger SRT Hellcat Redeye and \$10,000 in cash for car modifications. The goal: build a drag-racing machine capable of besting Malone on Woodward.

- [Alex Taylor](#) is a drag racer, mechanic and automotive content creator who grew up in the shop with her dad and competed in the 2013 HOT ROD Drag Week at age 16 as the youngest participant ever. Alex will be upgrading her NHRA Competition license, as she and her dad look to take their current build project in the 6-second, 200-mph range on the 1/4-mile drag strip
- [Tavarish](#) makes videos about fun, quirky and sometimes ruinously expensive project cars. He's known primarily for his rebuilding videos, buying broken or salvaged vehicles and bringing them to working condition. He has lots of opinions, most of which are wrong. His words, not ours
- [Westen Champlin](#) is a self-described "redneck scientist," auto guru from Kansas. His popular YouTube channel focuses on rebuilding and fixing pick-up trucks and other vehicles, earning a reputation of building some of the most ridiculous cars on the internet
- [Throtl](#) is a small group of like-minded gearheads who enjoy giving cars a new lease on life. Focusing on building project cars from the ground up, they actually give one away to fans/supporters every 90 days. Combined, the team has owned more than 200 cars and might be seen in a neighborhood near you soon in their Throtl ice cream truck

"Roadkill Nights has grown tremendously over the past few years, but for 2021 we're bringing back the grassroots feel, the drama and the fun with the Hellcat Grudge Match to see who can build the craziest and fastest car," said Tim Kuniskis, Dodge Brand Chief Executive Officer – Stellantis. "This is street racing on Woodward – the build rules

are loose for a purpose so we can see these builders really push the envelope with their vehicles.”

Enthusiasts will be able to follow the progress of the Hellcat Grudge Race builds by viewing videos and pictures from Malone and the online automotive builders throughout their process, including behind-the-scenes content and commentary, at dodgegarage.com/roadkill-nights.

MotorTrend will capture it all this year with two half-hour Roadkill episodes to air on MotorTrend's streaming service and on MotorTrend TV.

"I'm looking forward to matching my car modification and racing abilities against Alex, Tavarish, Westen and Throtl," said Malone. "I have some big plans for my SRT Hellcat Redeye that include coming to Pontiac with more than 1,000 horsepower under the hood. All of the Hellcat Grudge Race challengers better bring something really special to keep up."

Roadkill Nights Powered by Dodge returns for the sixth year as the traditional kick off to the Motor City's weeklong celebration of classic cars and car culture with legal street drag racing, classic and modern muscle car show, exhilarating interactive experiences and immersive, fun-filled activities at M1 Concourse in Pontiac, Michigan. Unlike any other event in the world, drivers of the fastest street-legal drag cars in America have the opportunity to drag race in front of spectators on historic Woodward Avenue as it is transformed from a street into a sanctioned, 1/8-mile drag strip.

Also returning for 2021 are Dodge thrill and drift rides in Challenger and Charger SRT Hellcats, where participants can go for the rides of their lives as the supercharged HEMI® cuts the tires loose on the M1 Concourse skidpad and north loop portion of the track. Other returning fan favorites include the high-octane virtual head-to-head racing in Dodge Challenger SRT Demon simulators; classic and modern muscle car show; dyno testing; "Roadkill" stunts; flamethrower, wheelstander and pro-mod exhibitions; family-friendly activities; and an eclectic array of food truck offerings (subject to change).

Gates will be open for MotorTrend Presents Roadkill Nights Powered by Dodge on Saturday, August 14 from 10 a.m. to 9 p.m. Drag racing starts at 11 a.m. Eastern. Fans can experience the excitement of Roadkill Nights Powered by Dodge via livestream feed across a variety of channels, including:

Dodge//SRT

For more than 110 years, the Dodge brand has carried on the spirit of brothers John and Horace Dodge. Their influence continues today as Dodge shifts into high gear with a lineup that delivers unrivaled performance in each of the segments in which the brand competes while moving forward to a future that includes electrified muscle in the form of the next-generation, all-new Dodge Charger.

The next-generation Dodge Charger electrifies a legend, with the Charger retaining its title as the world's quickest and most powerful muscle car led by the all-new, all-electric 2024 Dodge Charger Daytona Scat Pack. The all-new Dodge Charger will also offer performance choices via multi-energy powertrain options including the 550-horsepower Dodge Charger SIXPACK H.O., powered by the 3.0L Twin Turbo Hurricane High Output engine.

Dodge also keeps its foot on the gas as a pure performance brand with the 710-horsepower Dodge Durango SRT Hellcat, the most powerful SUV ever, and best-in-class standard performance in the compact utility vehicle segment with the Dodge Hornet.

Dodge is part of the portfolio of brands offered by leading global automaker and mobility provider Stellantis. For more information regarding Stellantis (NYSE: STLA), please visit www.stellantis.com.
