Canada: Clean Sweep - Jeep® Performance Parts Introduces New, High-performance Windshield Wiper Blades

More efficient glass-cleaning system uses less washer fluid and virtually eliminates “blind” seconds

August 9, 2022, Windsor, Ontario - Jeep® Wrangler and Jeep Gladiator owners can get a cleaner view of the trail or road with new high-performance wiper blades from the Jeep Performance Parts (JPP) team at Mopar that quickly clear the windshield with less washer fluid.

The key element of the new JPP performance wipers are 12 laser-cut holes along each blade, creating wet jets that release washer fluid along the entire length, flooding the dirty windshield glass as the blade travels along its arc. Dirt and debris are washed away on the first stroke.

With the vehicle’s standard spray nozzles disabled, the JPP system uses less washer fluid while minimizing the flooded windshield “blind seconds” while driving.

“Our new, innovative JPP performance wiper blades quickly restore visibility while tackling the toughest trails by keeping the washer fluid where it belongs – on the glass,” said Mark Bosanac, North America senior vice president, Mopar service, parts and customer care. “Perfect for off-road or on-road driving, our new ultra-capable wiper blades are just one of the more than 500 quality-tested, factory-backed parts and accessories in our Jeep portfolio.”

The JPP performance wiper kit (Mopar part number PW100013AB) is available now in Canada and the U.S. (coming soon to other markets) for 2018 model-year and newer Jeep Wrangler and Jeep Gladiator models. It contains arms, blades and tubing required for initial installation, as well as one set of replacement blades. The Canadian manufacturer’s suggested retail price is \$189.00. See your local Canadian Jeep retailer for more information or to purchase.

Mopar

This year marks the 85th anniversary of Mopar.

A simple combination of the words MOTOtor and PARTs, Mopar offers exceptional service, parts and customer-care. Born in 1937 as the name of a line of antifreeze products, Mopar has evolved over nearly 85 years to represent both complete vehicle care and authentic performance for owners and enthusiasts worldwide. Mopar made its mark in the 1960s during the muscle-car era with performance parts to enhance speed and handling for both on-road and racing use. Later, Mopar expanded to include technical service and customer support, and today integrates service, parts and customer-care operations in order to enhance customer and dealer support worldwide.
