Dodge Challenger 'Last Call' No. 7 Special-edition Model Set Back

September 26, 2022, Auburn Hills, Mich. - Dodge today announced that the introduction of the brand's seventh and final 2023 "Last Call" commemorative edition model has been set back.

The car's debut had been set for the 2022 Specialty Equipment Market Association (SEMA) show in Las Vegas, Nevada, taking place on Nov. 1-4.

When product and supply challenges have been resolved, the reveal will be rescheduled.

The six previously announced "Last Call" models include Dodge Challenger Shakedown, Dodge Charger Super Bee, Dodge Challenger and Charger Scat Pack Swinger, Dodge Charger King Daytona and Dodge Challenger Black Ghost.

The Dodge "Last Call" special editions celebrate the Dodge [Challenger](#) and Dodge [Charger](#), which are coming to an end in their current forms at the end of 2023.

"Last Call" Highlights

In addition to the "Last Call" special-edition models, Dodge brand will also celebrate its 2023 model lineup by bringing back three beloved heritage exterior colors: B5 Blue, Plum Crazy purple and Sublime green. One popular modern color, Destroyer Grey, also returns to the fold. Charger and Challenger will each offer 14 total 2023 exterior color options. 2023 Charger and Challenger R/T models will also feature new "345" fender badging, a callout to the 345-cubic-inch HEMI® engine under the hood.

All 2023 Dodge Charger and Challenger models will also carry a special commemorative "Last Call" underhood plaque, marking their historical significance. The brushed aluminum underhood "Last Call" plaque features the vehicle name and a vehicle silhouette, as well as "Designed in Auburn Hills" and "Assembled in Brampton" to proclaim each vehicle's origin.

Dodge//SRT

For 110 years, the Dodge brand has carried on the spirit of brothers John and Horace Dodge. Their influence continues today as Dodge shifts into high gear with a lineup that delivers unrivaled performance in each of the segments in which the brand competes while moving forward to a future that includes electrified muscle in the form of the next-generation, all-new Dodge Charger.

The next-generation Dodge Charger electrifies a legend, with the Charger retaining its title as the world's quickest and most powerful muscle car led by the all-new, all-electric 2024 Dodge Charger Daytona Scat Pack. The all-new Dodge Charger will also offer performance choices via multi-energy powertrain options including the 550-horsepower Dodge Charger SIXPACK H.O., powered by the 3.0L Twin Turbo Hurricane High Output engine.

Dodge also keeps its foot on the gas as a pure performance brand with the 710-horsepower Dodge Durango SRT Hellcat, the most powerful SUV ever, and best-in-class standard performance in the compact utility vehicle segment with the Dodge Hornet.

Dodge is part of the portfolio of brands offered by leading global automaker and mobility provider Stellantis. For more information regarding Stellantis (NYSE: STLA), please visit www.stellantis.com.
