## Canada: 2025 Jeep® Compass Fact Sheet

July 24, 2024, Windsor, Ontario - The 2025 Jeep® Compass delivers legendary 4x4 performance standard across the entire lineup, plus comfort and functionality with premium styling and craftsmanship inside and out. The 2.0-litre, direct injection, turbocharged, inline four-cylinder engine delivers best-in-class standard horsepower and torque, as well as premium on-road manners. The most technologically advanced Jeep Compass ever offers an array of advanced safety and security features, including an available semi-autonomous driving system, parallel and perpendicular park assist, Traffic Sign Recognition systems and a 360-degree surround view camera system.

Standard safety and security features on all trims include Drowsy Driver Detection, Full-Speed Forward Collision Warning with Active Braking, Pedestrian Automatic Emergency Braking and Active Lane Management. Next-generation technologies offered on Compass include an available 10.25-inch frameless full-colour thin-film transistor (TFT) digital cluster – one of the largest in the segment, available 10.1-inch digital infotainment touchscreen, the award-winning Uconnect 5 with standard wireless Apple CarPlay and Android Auto and an available wireless charging pad.

### New for 2025:

- New limited-edition Joose exterior colour (late availability)

### Highlights:

- The 2.0-litre direct injection turbocharged inline four-cylinder engine for Compass is rated at 200 horsepower and 221 lb.-ft. of torque (best-in-class standard horsepower and torque) and is mated to a highly efficient, eight-speed automatic transmission. Standard on all trims, benefits of the engine include outstanding fuel economy with engine stop-start (ESS) technology, low emissions, quick 0-96 km/h (0-60 mph) launch performance and enhanced drivability
- Legendary 4x4 performance is standard across the entire lineup:
  - Jeep Active Drive 4x4 system standard on all models (Trailhawk equipped with Jeep Active Drive Low 4x4 system with a class-leading 20:1 crawl ratio)
- Standard Selec-Terrain provides up to four modes for the best four-wheel-drive performance in any weather condition (Auto, Snow, Sand/Mud modes standard on all models; Trailhawk model gains Rock mode)
- Jeep Compass features an enhanced exterior design that combines premium craftsmanship with iconic Jeep styling. The recent restyling of several signature components provides distinguished new looks that celebrate both on-road sophistication and off-road grit
- Advanced LED lighting technology improves visibility. Front LED reflector headlamps are standard on all models; premium LED projector headlamps and taillamps are available on Limited and Trailhawk models; LED fog lamps are available on North and above
- Class-exclusive fully disconnecting rear axle and power-transfer unit (PTU) provide 4x4 models with enhanced fuel economy
- Trailhawk provides legendary Trail Rated 4x4 capability with:
  - Standard Jeep Active Drive Low 4x4 class-leading 20:1 crawl ratio
  - One-inch factory lift, skid plates, aggressive off-road tires, and Jeep signature red front and rear tow hooks
  - 30-degree approach angle, 24-degree breakover angle and 34-degree departure angle
  - Hill-descent Control
  - Up to 48 centimetres (19 inches) of water fording

- Up to 907 kilograms (2,000-lb.) towing capability (when properly equipped)
- More than 80 standard and available safety and security features – the most available features in its class:
  - Advanced safety and next-generation technology, including Drowsy Driver Detection, rear seat reminder alert and security alarm, is standard on all trims
- Next-generation Uconnect 5 infotainment system with operating speeds that are five times faster and standard Apple CarPlay and Android Auto capability:
  - 10.1-inch Uconnect 5 high-definition touchscreen radio (standard on , Altitude, Limited and Trailhawk)
- Available full-colour 10.25-inch frameless digital TFT gauge cluster, one of the largest in the class
