Warren Stamping Plant

22800 Mound Road , Warren, Michigan, United States

Floor Space: 1.8 million square feet

Acreage: 78 acres

Products: Stampings and assemblies including hoods, roofs, liftgates, side apertures, fenders and floor pans. Stampings/assemblies provided for the Dodge Durango, Chrysler Pacifica, Jeep® Gladiator, Grand Cherokee, Wagoneer/Grand Wagoneer, Wrangler and Ram Trucks (Light Duty and Heavy Duty).

Employment: 1,270 (1,104 hourly; 166 salaried)

Union Local: UAW Local 869, 889 and 412

Plant History: Facility was completed in 1948 and production began in 1949. Major expansions were implemented in 1952, 1964, 1965 and 1986. FCA confirmed on June 25, 2014, that it would invest \$63 million to expand capacity at the facility. The investment was used to purchase and install the latest high-speed Servo Tandem Press technology (a 180-inch press line). The new press line has increased capacity by up to 12,000 hits per day or approximately 3.6 million parts per year.

On [Feb. 26, 2019](#), FCA announced that it would invest \$245 million in the facility to support additional production of Jeep® and Ram vehicles being created as part of a \$4.5 billion investment announcement that will impact five existing Michigan facilities and build a new assembly plant within the city of Detroit. In total, the proposed projects will create nearly 6,500 new jobs.
