2007 Dodge Magnum SRT8 Hauls in More Ways Than One

August 31, 2006, Auburn Hills, Mich. - Powered by a 425-horsepower (317-kW), 6.1-liter HEMI® V-8 and possessing 71.6 cubic feet of cargo space, the 2007 Dodge Magnum SRT8 provides plenty of utility as well as incredible Street and Racing Technology (SRT) performance.

That performance includes a 0-60-mph time in the low 5-second range, 0-100-0 mph in under 17 seconds and a 60-0-mph stopping distance of approximately 110 feet.

But the 2007 Dodge Magnum SRT8's performance isn't just acceleration and braking. There's also world-class ride and handling across a dynamic range; race-inspired interior appointments; and functional, performance-oriented exterior styling.

"High performance and utility don't have to be mutually exclusive," said Kipp Owen, Director – Street and Racing Technology, Chrysler Group. "The 2007 Dodge Magnum SRT8 provides all the signature SRT performance. This is a sport-tourer that can generate 0.88 g on the skid pad, with seating for five and enough cargo room in the rear to handle a 27-inch television."
