

## **2010 Jeep® Patriot Delivers Best-in-class Capability**

- Five-speed manual transmission with 2.0-liter World Engine delivers 29 mpg highway (standard on Patriot Sport 4x2)
- Driver and front-passenger active head restraints (all models)
- Remote start (available with Security Group)
- Automatic climate control (available on Patriot Limited)

August 31, 2009, Auburn Hills, Mich. - Jeep® Patriot is a tremendous value, combining the packaging, safety features and interior flexibility of a sport-utility vehicle (SUV) with performance, handling, and 29-mpg highway fuel economy. With its combination of fun, freedom, utility and best-in-class Jeep 4x4 capability, the 2010 Jeep Patriot sets apart from the competition.

Innovative technology affords Jeep Patriot more capability than any other vehicle in its class. Jeep Patriot is available in three drive configurations: front-wheel drive, Freedom Drive I™ (a full-time, active four-wheel-drive system with lock mode) and Freedom Drive II™ Off-Road Package (a full-time, active 4x4 system with best-in-class 19:1 Low Ratio that provides true Jeep 4x4 Trail Rated® capability).

The Trail Rated Jeep Patriot equipped with Freedom Drive II Off-Road Package sits one inch higher than non-Trail Rated versions and meets Jeep off-road capability requirements for traction, water fording, articulation, maneuverability and ground clearance. The Off-Road Package's 17-inch wheels contribute to the Trail Rated Patriot's 9 inches of ground clearance, 29.6-degree approach angle, 34.2-degree departure angle and 23.3-degree breakover angle. In addition, Trail Rated models have additional body sealing and high-mounted drivetrain vents in order to support 19-inch water-fording capability.

The Freedom Drive II Off-Road Package utilizes a second-generation Continuously Variable Transaxle with a low ratio (CVT2L) to maximize off-road capability. In addition, 17-inch all-terrain tires, a full-size spare tire, skid plates, tow hooks and fog lamps separate Trail Rated Jeep Patriots from all other compact SUVs.

Jeep Patriot is designed for customers who want four-wheel-drive capability or the year-round versatility of front-wheel drive, excellent fuel economy and an attractive price point. With modern interior and classic Jeep exterior styling, including traditional round Jeep headlamps, seven-slot grille, muscular body-side flares, and strong stance—the 2010 Jeep Patriot broadens the classic Jeep design appeal to new customers.

### **JEEP PATRIOT AT A GLANCE**

#### **Rugged, classic Jeep® styling at an affordable entry-level price**

- Immediately recognizable as a Jeep vehicle, Patriot expands the brand by providing an entry-level price point for the Jeep brand

#### **More capability than any other vehicle in the compact SUV class**

- Best-in-class 4x4 off-road capability (Trail Rated when equipped with Freedom Drive II Off-Road Package. Features include: low-range mode generating best-in-class 19:1 crawl ratio, Brake-traction Control System (BTCS), Hill-descent Control (HDC), Hill-start Assist (HSA) and 19-inch water-fording capability)

#### **Confidence, safety and value**

- Excellent 29-mpg highway fuel economy, along with standard Electronic Stability Control (ESC), Brake-traction Control System (BTCS), ABS, side-curtain air bags, Electronic-roll Mitigation (ERM) and Brake Assist
