Chrysler Grand Voyager—Innovation and Unrivaled Family-friendly Features (Outside North America)

HIGHLIGHTS

- Chrysler Grand Voyager leads the segment with more than 65 minivan-first innovations, including 'n Go™ and Stow 'n Go® seating and storage systems
- Grand Voyager's innovative technologies include: minivan-first dual screen rear DVD entertainment system, Uconnect™ Navigation with voice commands, Uconnect Phone and iPod® Control
- Efficient 2.8-liter Common-rail Diesel (CRD) engine is optimized for improved refinement and 9 percent less emissions compared with the prior year's performance
- High-level of safety and security equipment including standard all-row side-curtain air bags, supplemental front-seat side air bags and advanced driver and front-passenger air bags
- Chrysler invented the minivan in 1983, has sold more than 12 million minivans worldwide since and still commands more than 40 percent of the U.S. minivan market
- Chrysler minivans lead with more than 65 minivan-first innovations

September 15, 2009, Frankfurt, Germany -

With more than 25 years of minivan development, 65 segment-firsts, 40 available safety features and the most family-friendly features—Chrysler Grand Voyager remains the best vehicle to transport people and things.

The minivan segment's first-and-only Stow 'n Go seating and storage system—the most flexible seating system in the minivan segment—is standard on all Chrysler Grand Voyager models, giving customers second- and third-row seating that quickly and conveniently folds into the floor.

A Chrysler-first innovation, and an exclusive in the segment is the Swivel 'n Go™ seating group. Swivel 'n Go features second-row seats that swivel 180 degrees to face the third row, a removable table that installs between the two rows, in-floor covered storage bins and fold-in-the-floor third-row seating and a minivan-first dual 22-cm (9-inch) rear DVD entertainment system with swiveling third-row monitor are also available with Swivel 'n Go.

With its wind-tunnel developed exterior, minivan-first six-speed automatic transmission and available 2.8-liter Common-rail Diesel (CRD) or 3.8-liter V-6 petrol engine, Chrysler Grand Voyager minivans delivers efficient dynamics.

Through advanced engine optimization, the latest Chrysler Grand Voyager CRD models deliver up to a 9 percent improvement in fuel consumption and a 9 percent reduction in CO_2 emissions when compared to the prior year's performance—without sacrificing horsepower and torque.

The four-cylinder, 2.8-liter diesel engine achieves 8.8 L/100 km and 233 g/km CO_2 with a Diesel-particulate Filter (DPF) and 8.4 L/100 km and 222 g/km CO_2 without. The Chrysler Grand Voyager also features revised steering and suspension tuning. An improved sport-tuned steering gear enhances the responsiveness of the Grand Voyager model line, providing a quicker steering ratio and greater feedback of the road. New shock absorbers and coil springs with greater dampening, along with redesigned front and rear sway bars, improve Grand Voyager's handling, on-road feel and passenger ride comfort.

Chrysler Grand Voyager
AT A GLANCE

- **With the Swivel ’n Go™, Chrysler offers two distinct seating and storage systems**
    - Swivel ’n Go is a unique seating and storage system that offers in-floor cargo bins of the Stow ’n Go® seating system combined with second-row quad chairs that rotate 180 degrees to face forward or rearward and a stowable center table that installs between second- and third-row seats
    - The Stow ’n Go seating and storage system is still an industry exclusive available only on Chrysler minivans. Chrysler Grand Voyager is the only minivan to offer fold-in-the-floor second-row seating (without the need to remove the seats) and fold-in-the-floor third-row seats
- **Chrysler Grand Voyager is a “family room on wheels” with its fun features, practical comforts and pleasant driving experience**
    - Fun features, including the Swivel ’n Go seating and storage system, a 22-cm (9-inch) dual DVD system with swiveling third-row monitor that can play different media at the same time, Uconnect™ Navigation with voice-commands and real-time traffic monitoring, iPod® Control, 506-watt premium surround sound, LED pinpoint reading lamps, ambient halo lighting, a removable, sliding center console and removable flashlight in the tailgate give more options to families on the go
    - Practical comfort features, including the Stow ’n Go seating and storage system, heated first- and second-row cloth or leather seats, second- and third-row sunshades, an umbrella holder next to the driver’s seat, removable, dishwasher-safe cup holders, second-row power windows and third-row power-folding seats provide the comforts of home while on the road
- **Chrysler Grand Voyager offers an array of safety features including all-row side-curtain air bags, ParkSense® rear-park assist system(1) and ParkView™ rear back-up camera and Electronic Stability Control (ESC).**

  (1) Denotes most stationary obstacles. As with all electronically controlled systems, care is advised
