Jeep® Patriot Delivers Capability, Expands on Refinement (for markets outside North America)

Highlights:

- Jeep® Patriot Overland model features premium luxury appointments, including unique leather seating with heat, 18-inch aluminum wheels, Uconnect™ Phone, Boston Acoustics nine-speaker premium sound system and Parksense® rear-park assist system
- Jeep Patriot offers fuel-efficient diesel and petrol powertrains, ideal C-segment proportions, and 4x4 capability
- Freedom Drive I™ features an active four-wheel-drive system with lockable Electronic-controlled Coupling (ECC) for improved traction in poor driving conditions
- Versatile interior featuring innovative Uconnect Navigation, iPod® Control and nine Boston Acoustics speakers including two articulating liftgate speakers
- High-level of safety and security equipment

September 15, 2009, Frankfurt, Germany - Jeep® Patriot is a tremendous value, combining the packaging, safety features and interior flexibility of a sport-utility vehicle (SUV) with performance, handling, and low fuel consumption. With its combination of fun, freedom, utility and Jeep 4x4 capability, the Jeep Patriot sets apart from the competition.

With its premium features and unique appointments, the new Jeep Patriot Overland package raises the bar in the Patriot lineup and includes heated leather seating, 18-inch aluminum wheels, Uconnect™ Phone, Boston Acoustics nine-speaker premium sound system, Parksense® rear-park assist system and more.

Innovative technology affords Jeep Patriot more capability than any other vehicle in its class. Passenger-friendly technologies offered on Jeep Patriot include: Uconnect Navigation with voice commands and real-time traffic, Uconnect Multimedia with touch screen, iPod® Control, nine Boston Acoustics premium speakers including two articulating liftgate speakers and hands-free Uconnect Phone.

A quality-proven 2.0-liter turbo-diesel engine offers Jeep Patriot competitive fuel-efficiency and is paired to a smooth six-speed manual transmission. The 2.0-liter turbo-diesel engine produces 103 kW (140 hp DIN) and 310 N•m (229 lb.-ft.) of torque with fuel consumption as low as 5.6 L/100 km.

Jeep Patriot also provides a 2.4-liter World Engine with class-leading power thanks to dual Variable-valve Timing (VVT) and an intake manifold design with flow control valves. The 2.4-liter four-cylinder engine delivers 125 kW (170 hp DIN) and 220 N•m (162 lb.-ft.) of torque with fuel consumption as low as 6.8 L/100 km.

With a modern interior and classic Jeep exterior styling, including traditional round Jeep headlamps, seven-slot grille, trapezoidal wheel openings and strong stance—the Jeep Patriot broadens the classic Jeep design to appeal to new customers.

Offering Jeep 4x4 capability, Patriot includes Freedom Drive I™, a full-time, active four-wheel-drive system — standard. This four-wheel-drive system features a lockable Electronic-controlled Coupling (ECC), giving Jeep Patriot drivers the ability to handle rough weather conditions and low-traction surfaces.

Jeep Patriot is designed for customers who want four-wheel-drive capability, front-wheel drive fuel-efficiency and an attractive price point. With the Freedom Drive I™, a full-time, active four-wheel-drive system, Jeep Patriot is able to

handle rough weather conditions and low-traction surfaces with confidence.

JEEP PATRIOT AT A GLANCE:

Rugged, classic Jeep styling at an affordable entry-level price

- Immediately recognizable as a Jeep vehicle, Patriot expands the brand by providing an entry-level price point for the Jeep brand
- More capability than any other vehicle in the compact SUV class
- Jeep 4x4 off-road capability featuring Freedom Drive I™, Brake-traction Control System (BTCS) and Hill-start Assist (HSA)
- Quality-proven 2.0-liter turbo-diesel engine offers great fuel-efficiency, loads of torque-on-demand and an available Diesel-particulate Filter (DPF)

Versatile interior features and flexibility, including:

- Flexible 60/40 split, fold-flat rear seats with recline feature
- Front-passenger seat that folds forward to create a table-like surface
- Removable, carpeted-load floor
- Dual-purpose, self-recharging removable LED interior lamp mounted in the headliner above the cargo area that snaps out of the bezel to serve as a flashlight
- LED illuminated cup holders
- Standard stain-repel seat fabric

Innovative technology includes:

- Uconnect Navigation
- Uconnect Multimedia
- Uconnect Phone
- iPod® Control
- Nine Boston Acoustics speakers including subwoofer and two articulating speakers
- New automatic climate control system
- Electronic Vehicle Information Center (EVIC)

Safety and security features include:

- Side-curtain air bags
- Seat-mounted (thorax) side air bags
- Electronic Stability Control (ESC)
- Brake Assist
- Hill-start Assist (HSA) (with manual transmission)
- Electronic-roll Mitigation (ERM)
- ABS with rough-road detection
- Brake-traction Control System (BTCS)
- Driver and front-passenger active head restraints
- Tire-pressure Monitoring (TPM)
